644302PADC	015 Pot/Pan Cleaner	1:512	1:512			

What does the DfE 'Design for the Environment' mark mean? It assures that the EPA's Design for the Environment (DfE) scientific review team has screened each ingredient for potential human health and environmental effects, and contains ingredients that pose the least concern among chemicals in their class. The DfE mark is an easy way to know you are choosing a product that is as safe as possible for people and the environment.

What does the Earth Force® 'cleaning with the earth in mind' mark mean? Earth Force® products are formulated with the environment and human health strongly in mind and use the following types of ingredients: biodegradable surfactants, with byproducts that are less toxic than the parent compound; solvents that are not hazardous air pollutants and pose no threat to the Earth's ozone layer; fragrances that have been screened for potential hazardous and persistent ingredients; and other components with a more positive environmental profile than in conventional cleaning and floor care products.

What does The CDDS Force™ 'cleaning with the force' mark mean? This mark represents our proprietary super concentrates designed specifically for The CDDS Force™ chemical dilution and dispensing system. This system reduces waste, shipping costs, and contributes to package source reduction efforts. The CDDS Force™ eliminates the potential for employees to be exposed to concentrated chemicals and/or accidentally mix harmful chemicals.

The CDDS Force™ concentrates are manufactured exclusively by: ABC Compounding Co., Inc. Atlanta, GA / Dallas TX rev.0902
